PROFILE

I am a designer and developer and working with WordPress since 2019. I have extensive knowledge about branding through website design, theme customization, and anything else you need to make your business shine online!

I loved coding and programming, so I started learning web design and development to improve my skills. After some time I heard of WordPress, which is a really popular platform that's used for both blogging sites as well as many other personal websites across the internet- all with relatively easy functionality!

Now I am learning App development to improve my skills more. Basically, I am learning flutter that used to develop applications for Android, iOS, and even the web.

EDUCATION

▶ 2019 - Present
HSC - College

Currently, I am studying at Madhupur Government college for my HSC (Higher Secondary Certificate).

▶ 2019
SSC - High School

I finished my SSC (Secondary School Certificate) from Madhapur Rani Bhabani Government high school in 2019.

EXPERIENCE

▶ 2019 - Present
Freelance

I started doing freelancing in 2019 and I am working on Fiverr and Upwork as a Web Designer and Developer.
